

# TAKE FREEDOM

as the keepers of a legacy that never existed we are upset.

155 years later and perception hasn't changed. black bodies are still a lick. paddyrollers still get media support for capturing those whose light cannot be dimmed, only extinguished.

don't accept that mediocrity is as much a threat as excellence.  
stop being co-opted in real time.

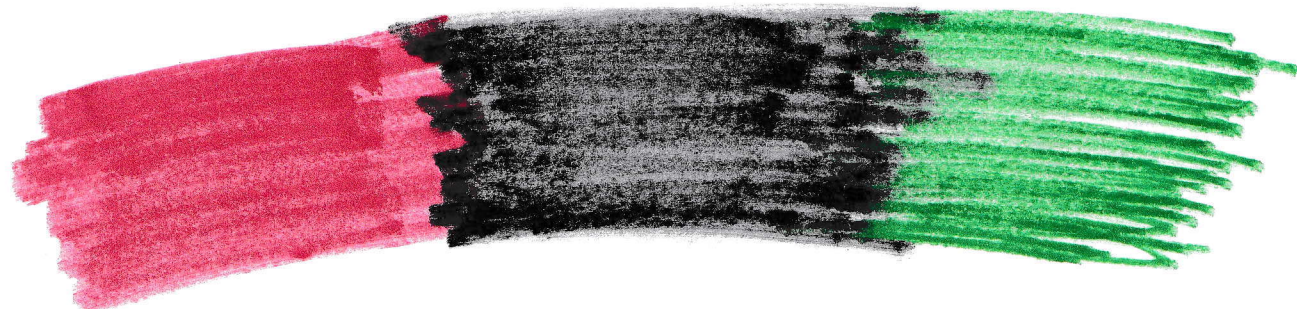

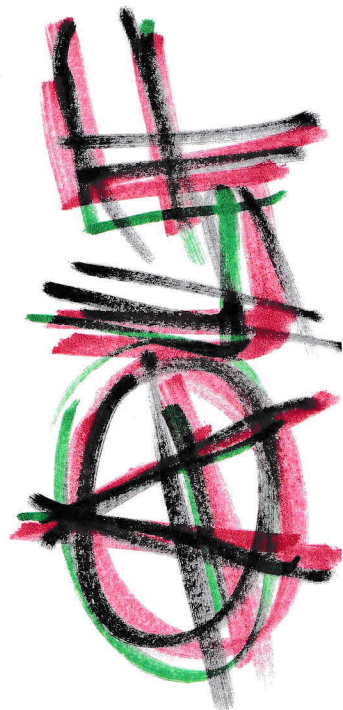

by participating in these systems they are allowed to exist.  
we breathe against our ancestors with each vote.  
dream bigger - make yourself known.  
hex them.

if they kill you, haunt them.

don't kill yourself but please kill your tv.  
gifts of luxury are not safe.

if you are not in control, you are being exploited.  
there are no martyrs, only fish in the sea.  
remember, we are africans, in the usa, not of it.  
we were never meant to be included.  
sacrifice your comforts for the earth that birthed you.

no compromise in defense of mother earth.

LIBERATION  
IS
