

AFRICAN LIBERATION FRONT

NO COMPROMISE IN DEFENSE OF MOTHER EARTH

quit the whole system - they kidnapped us for labor value

embody diverse tactics - stop judging us lumpens and ask for advice

open every prison cell - deal with betrayals interpersonally

take back mother's land (the whole world) - our blood nourishes the soil

quit junk food - go vegan, grow vegan

respect yr ancestors - make everywhere an altar

teach african children - with love and respect, each instant

defend africa worldwide - by any means, with full determination

respect black trans people - we are not ur cartoon characters

stop money - destroy the concept of capital, barter works

kill the virus by killing capital. end labor value as a concept. not just now, forever.
along the way, eat ur abusers. roast them on open pyres.

we cannot reform a system fueled with our blood without finding an eager replacement.
who will trade us willingly to make up the last thousand years?
